

**EastonCable**  
we have it all.

## How to use Easton Cable's Enhanced Parental Control Features

Easton Cable's Enhanced Parental Control Features allow you to restrict access to certain channels on types of programming. Using a Personal Identification Number (PIN), you can block specific channels or any show that carries a certain rating (R for example). Now, you can even block the title of the shows or channels you have restricted. Instead of the name of the program, the Program Guide will display "Title Blocked" until you enter your PIN.

**Block PIN** – This allows you to set a special code necessary to use control features. Choose something that will be easy for you to remember, but that your children will not be able to guess.

1. Press "Settings" on remote control 2 times
2. Scroll down to "BLOCK PIN"
3. Press "Select"
4. Select "Change"
5. Press "Select"
6. Enter PIN. Your terminal comes preset with either 0000 or 6110 as the default PIN.
7. Enter new 4 digit PIN
8. Re-enter PIN
9. Press "Settings" once to return to programming

**Block Channels** – This feature restricts "Settings" access to channels you select. To view the channel, the user must enter the PIN. The title will still appear unless you activate Block Titles too.

1. Press "Settings" on remote control 2 times
2. Scroll down to "BLOCK CHANNEL"
3. Press "Select"
4. Enter your PIN
5. Select channels you want blocked
6. Press "Settings" once to return to programming

**Block Rating** – This feature allows you to restrict access to any program that carries a certain rating on any channel. The title will still appear unless you activate Block Titles too.

1. Press "Settings" on remote control 2 times
2. Scroll down to "BLOCK RATING"
3. Press "Select"
4. Enter your PIN
5. Select ratings you want blocked
6. Press "Settings" once to return to programming

**Block Titles** – This feature blocks the name of the programs you have blocked using either the Block Channels or Block Rating feature. The name of the show on the Program Guide will change to "Title Blocked."

1. Press "Settings" on remote control 2 times
2. Scroll down to "BLOCK TITLES"
3. Press "Select"
4. Enter your PIN
5. Select hidden or display titles
6. Press "Settings" once to return to programming
